Charakteristika

The Designblok festival will celebrate 25 years this October. The theme of the jubilee edition is JOURNEY.

From 4 to 8 October 2023, two spectacular exhibition houses will come alive with the largest design and fashion show in Central Europe. For the first time Designblok will occupy the Trade Fair Palace, the largest exhibition space of the National Gallery Prague, and for the third time the Museum of Decorative Arts in Prague.

Czech society, and with it, original design, has come a long way in the past quarter of a century. From the questions of what design is and what it is actually used for, through the initiation of cooperation between designers and industry, we have reached a situation where quality design is not only a distinct competitive advantage, but also a desirable means of solving everyday situations and much more complicated social and environmental issues.

The event for enthusiasts has become one of the main cultural events of the season, traditionally bringing leading artists, curators, collectors and journalists from all over the world to Prague in search of fresh inspiration and contacts, as well as business opportunities. Embark on an adventurous journey full of craft, art, innovation, education and good fun - celebrate Designblok's quarter-century with us!
