Gabriel Loci

- The unique historic building of the former Beuron Convent was built in 1888–1891 according to the design of the Benedictine monks Hildebrand de Heptinne and Ghislain de Béthune.
- From 1932 the building functioned as the Postal Museum, after the Second World War as the Postal Voucher Office, and from 1963 as the Computing and Control Centre for Communications. In 1998, it became the Prague Postal Directorate and the Postal Museum.
- In 1964 the building was registered as a cultural monument.
- In November 2019, the Czech Post sold the monastery of St. Gabriel to real estate company Cimex Invest. They renamed it Gabriel Loci.
- In 2020 and 2021, the 22nd year and 23rd year of Designblok took place in Gabriel Loci.

Theme of the 24th edition

This year's Designblok will have two main exhibition houses – Gabriel Loci in Holečkova Street in Prague 5 and the Museum of Decorative Arts in 17. listopadu Street in Prague 1. The theme of the 24th Designblok will be FOREST, a theme that focuses primarily on the use of natural materials, traditional Czech crafts and environmental issues.

The forest is the source of life. Thanks to plants we can breathe and greenery is the most natural enhancer of our everyday environment. The forest is also a source of materials - for example, for the production of furniture or glass. The forest is also a temple of relaxation, a paradise for mushroom pickers, a source of inspiration for artists and craftsmen, a haunted and magical fairytale place.

Gabriel Loci will focus on the presentation of new contemporary international design projects in the traditional formats of Superstudio and Openstudio – the presentation of companies, stores and manufacturers on the one hand and designers, studios, students and schools on the other. The Museum of Decorative Arts will - as last year - be a conceptually tuned exhibition space with its own VIRGIN FOREST theme.

Characteristics

Openstudio – space for expositions of designers, studios and schools

Designblok's Openstudio, creative laboratory of contemporary design, is intended for expositions of designers, design studios, school studios and students. Here are primarily prototypes and small series production installations without a commercial manufacturer.

Every year, about 200 Czech and international designers present their work in Openstudio, mainly product designers, fashion designers and jewelry designers.

Openstudio also includes the Diploma Selection exhibition, a selection show of the best European diploma projects, as well as the Designblok support programme – Erste Premier Talent Display – showcasing Czech students in curated selection, and the Reflex Stage lecture platform, where presentations and panel discussions of designers take place every day.

If you are interested in taking part in Openstudio, apply for the selection process.
