Theme of the 24th edition

The theme of this year's Designblok will be FOREST. After the global theme of The Future, which we have chosen in 2019, the focus on local production with the theme Passion in 2020 and the theme Happiness in 2021, we have chosen a theme that will focus on the use of natural materials, traditional Czech crafts and environmental issues.

The forest is a source of life. Thanks to plants we can breathe, greenery is the most natural enhancer of our everyday environment. The forest is also a source of materials /for example, for furniture or glass production/. The forest is also a temple of relaxation, a paradise for mushroom pickers, a source of inspiration for artists and craftsmen, a haunted and magical fairytale place.

Designblok is going to take place at two main venues: the Gabriel Loci and the Museum of Decorative Arts in Prague. Gabriel Loci will focus primarily on presenting contemporary international design news in the traditional formats of Superstudio and Openstudio, i.e. international brands on one side and designers and design studios on the other. In Gabriel Loci, you will also find the next edition of the international exhibition Diploma Selection, the themed central exhibition Designeria or the discussion-based Reflex Stage.

The Museum of Decorative Arts will, as last year, be a conceptually tuned exhibition space with its own VIRGIN FOREST theme.
