Designblok 2025 Aftermovie

# light

Light symbolizes understanding, truth, hope and life. This year, the festival will focus on the position and impact of design in society and explore ways in which it can help people thrive and offer solutions to contemporary socio-economic issues. Curated exhibitions, installations and discussions at the Designblok Stage and the accompanying program of the Designblok Talks conference will shed light on some of these practical and theoretical questions.

“The scholar John Amos Comenius thought light could lead people out of confusion and bring them to truth. He considered knowledge and enlightenment to be the greatest achievable

## The main theme of the 28th Designblok Prague International Design Festival is

goal, and we wish to explore the role of contemporary design in this context – is design able to make the world a better place? How does it benefit the development and quality of human lives? What new structures and drivers can it provide to help resolve some of the problems we are currently facing? These themes and topics will be addressed as part of our exhibitions, discussions and lectures as well as during the Designblok Talks conference. Fiat lux! – Let there be light!”
