Superstudio

The right wing of the Industrial Palace at the Prague Exhibition Grounds is a sanctuary for those who are currently furnishing a flat or changing their life from the scratch. The elite of both local producers and worldwide brands present themselves every year via unique and unforeseen exhibition concepts.

Openstudio

The tent, situated on the site of the former left wing of the Industrial Palace, is an authentic riverbed of topical tendencies found in the design developments throughout the Czech Republic and abroad. This is the place where you can encounter the future stars of contemporary design and the creators whose original collections are transformations of their dreams and the most advanced technologies. They present themselves not only by their original installations but also in the framework of the discussion and lecture program housed by Reflex Stage.
