# Characteristic

**City/Galleries, Studios, Showrooms – Galleries, pop-up stores, shops and showrooms or any other space the entity chooses for its presentation and is produced and used by it based on existence of a valid independent legal title.**

Located mainly in Prague but also in other towns in the Czech Republic.

Dozens of galleries, exhibition spaces and showrooms in Prague have become an inherent part of Designblok. They prepare their own programme and special events for the audience during Designblok. Fashion brands, pop-up shops, jewellers and showrooms open exhibitions in their own spaces, as well as Prague art schools who exhibit works by their students and graduates. Museums exhibiting and collecting design also participate in this section of Designblok. You will find all the participants in the Map.

If you want to participate with your exhibition space in the city, submit your application. The contact person is Jan Makalouš (+420 736 515 360; [jan.makalous@profilmedia.cz](mailto:jan.makalous@profilmedia.cz)).
